Submitted to His Highness

Certain specific allegations were made in a letter published in the Madras Mail in June last -- against a non-official Vice President of one of the Municipalities in Mysore and it was ascertained that the allegations referred to the Vice-President of the Kolar Town Municipality The Deputy Commissioner was requested to hold an enquiry into the matter and he has reported that he does not believe there is any truth in the allegations except in one viz , that Mr Gopal Rao (the Vice President in question) was making an addition to his house without having obtained a -- license He adds that Mr Gopal Rao has some enemies in the town who wish to see him discredited

2. On a perusal of the records, I agree with the views of Mr Banerji that the Vice President has given some cause for complaint But as he has since resigned the office and as, at this stage, it is not desirable to discourage other non-official gentlemen who have been doing similar public work, by passing any adverse comment on the conduct of the Vice President in question, I think the papers may be simply recorded - Mr Bowring seems to have a high opinion of Mr Gopal Rao

3. I solicit His Highness's kind approval to the draft order herewith submitted

Letters to the Editor.

Local Self Government in Mysore.

SIR,—The cause of self government and Home Rule for India is the subject matter in one column or other in every issue of a certain paper. The experiment of self government in Mysore is being tried for a few years in a few places in a certain Native State The Vice President is a non official chosen from a respectable profession He has been building a house which he asks municipal contractors to supervise. He employs municipal peons and scavengers to assist the brick'ayers in carrying for them bricks, mud and materials, in preference to municip l work He uses municipal carts for removing wood materials bricks and mud required for the purposes of his house while allowing the silt and rubbish to rot in the streets for day s together if not for months. He uses various kinds of stones, the property of the Municipality found in several parts of the town while opening new drains, for the foundation of his house He uses the Municipal Park as a pasture land for his c ttle for grazing purposes While sanctioning a drain his consideration will be to first. In providing latrines, he wants one to be first placed near his house In the revision of house and shop taxes his houses are valued low In sanctioning the bills contractors every month such as lighting &c. and who supervise the work of his house all get the full amounts of the bills though they fail to comply with the requisitions of the agreement. In new constructions, additions or alterations he insists upon the rate payers under regulation to take out a licence before the work is taken up on hand and he who violates will be prosecuted while he in constructing a house making additions or alterations, does not care even to apply for a licence but yet he is not to be prosecuted His inspection of the town during mornings consists in going from his house to his office and from his office to his house and in the afternoons to attend a fair portion of the day to his other engagements, not for this sort of his work he is to get the hard earned money of the rate payers as an allowances.

Under the circumstances mentioned above we have to your kind readers to judge for themselves whether we are yet fit for self government or Home Rule We have not yet qualified ourselves for self government or Home Rule, as we have yet to learn how to sink our differences, as we have yet to learn how to subordinate personal ends to public good as we have yet to learn the noble virtues of self sacrifice self reliance self off cement, patriotism and public spirit. In thought, speech and action public good should be our goal, and national welfare our watchword No craven fears should deter us from doing or saying what we think and feel to be right, courage of conviction honesty of aim singleness of purpose breadth of vision, width of outlook l ssness of criticism, fervour of patriotism—these are virtues we have yet to cultivate, these are qualifications we have yet to acquire, these are equipments we have yet to fit ourselves with. Parochial provincial and racial considerations must be overlooked and disregarded The eye should solely be kept on the greatest good to the greatest number

FAIRPLAY.

Dear Sir,

In reply to your D.O. letter No.61 of yesterday's date, I write to state that in a conversation I had with the Dewan, I explained what I know about the matter, viz, that Mr C.B. Gopala Rao had neglected to obtain a license to build a room on the top of his house, while a Mahomedan who had defied the Municipal authorities was to be prosecuted for erecting a wall without a license.

As for the other allegations, I know nothing about them. I would suggest that as Mr.Girimaji Rao who is now in Mysore attending the Conference, he may be asked about it, as he is, I think, responsible for the letter, even if he did not write it.

Sir,

In obedience to your oral order of last Evening I beg to submit my Explanation as regards the Casual allegations contained in an Article of the Madras Mail of 5th June Under the heading "Local Self-Government in Mysore"

The article was no doubt intended to discredit me as the Vice President of Kolar Municipality, evidently by some one who had no regard to truth or honesty. Nothing would have been more welcome to me than to have been relieved by one willing and willing to take up the Responsibilities of the Office. You may remember that I have during the last 15 months Repeatedly trusted you to relieve me of the office as it seriously interfered with my professional work and it was due to your kindness and persuasion that I remained on it as long as I did.

As soon as the Article appeared I drew up my Explanation, the draft of which I have on Today

Dear Sir

Encl to Govt 256-15-7 (38)

You may be aware, that some time ago An article appeared in the Madras Mail under the heading Local Self Government in Mysore" The article evidently referred to Kolar Municipality and was intended to Expose me in particular

When the article appeared I wished to put the reputed Authors into Court but I was advised by my friends not to figure in Courts So I had to drop the matter It is just possible that my failure to do so might have created in your an impression that the allegations made in the article are true and that I am guilty of misconduct or Mal-administration I therefore think it my duty to Explain away the Article in question, Although with your usual Kindness you have not asked for one

Of the several allegations made in the article I admit having used the Services of the Municipal Carts & Servants on some occasions to remove my things from ~~the~~ my old house when I shifted to the new house in the Extension I never used them Services to the prejudice of Municipal work and I always paid a small present to the Servants whenever they rendered me any Services

As regards the building of an additional, i.e. + my
houses in the Extension without a license I have Explained
in the Municipal Council that it was due to an
oversight on my part and Expressed my Regret
It is true that one Rayappa, who is one of the Municipal
Contractors, Supervises the Construction of my houses
in the Extension He has been my Contractor for over
15 years and has built three houses for me in
Kolar and as such I have Employed him to Supervise
the present Construction

As for the other allegations and insinuations Contained
in the Article I Categorically deny them

If these acts Constitute Mal-administration or Misconduct
I plead guilty and I request you to Kindly Excuse me
